

## Progress in Techniques of Lightning Test

*Shi Lihua*

### OVERVIEW

#### 03 Progress in Techniques of Lightning Test

*Shi Lihua, Sun Zheng, Fu Shangchen*

#### 12 Review of Artificial Intelligence Applied to Electromagnetic Compatibility for High-speed Electronics

*Liu En-Xiao*

#### 25 Novel Power-resistant Absorbing Material for Microwave Anechoic Chamber: Review and Perspective

*Liu Lie, Zhang Ying, Sheng Jiaqi, Li Jianzhi, Ji Guangbin*

#### 38 Research Progress of Integrated Circuit Electromagnetic Compatibility Measurement Equipment of IC-stripline Cell

*Wu Jianfei, Chen Ledong, Li Runze*

#### 48 Principles and Outlook of Filtering Cables

*Han Yunan*

## ACADEMIC RESEARCH

**57** Study on the Measurement of the Near-field Radiation Electric Field of the ESD Simulator *Li Hongyan, Bai Bing, Lin Haoyu, Huang Pan*

**64** Research on the Electromagnetic Interference Suppression Performance of the Co-inductor Electromagnetic Band Gap Structure

*Niu Mengyuan, Hu Yusheng, Guo Chouwei, He Lijin*

**70** Research on Electromagnetic Emission Suppression of PINMAP Packaging Based on Machine Learning *Li Yan, Yang Xiaotian*

**79** Analyzing the Loading Effect of Reverberation Chamber Using Effective Absorption Cross Section

*Xu Qian, Cheng Erwei, Wang Pingping, Shen Xueqi*

## TECHNICAL COLUMN

**87** Changes in CISPR 14-1 Ed. 7.0 as for Discontinuous Disturbance Analysis (CLICKs) and its Application in Accordance with the Mandatory Requirements Introduced by EN IEC 55014-1:2021 Since October 2023

*Dr. Eng. Michele Zingarelli*
