

Bridging the 18~40 GHz Gap: a New Method for Anechoic Chamber Validation

Chen Zhong

OVERVIEW

03 Bridging the 18~40 GHz Gap: a New Method for Anechoic Chamber Validation

*Chen Zhong, Wang Huali, Guo Nicole,
Cheng Shaoyang*

09 Bearing Degradation in Motor Drive Systems : Causes and Suppression Methods

*Fan Fei, Yang Zhenning, Jie Huamin,
See Kye Yak*

23 Review of the Energy-selective High-intensity Electromagnetic Protection Technology

Zhang Lujie, Liu Peiguo, Ge Longjie, Zhou Tao

ACADEMIC RESEARCH

34 Design of a Non-reciprocal Integrated Energy Storage System for High-power Electromag- netic Pulse Protection

*Su Ruiqi, Wu Fan, Zhang Cong, Ma Jinhao,
Tang Bihua, Fan Wenhao, Liu Yuan'an*

Competent Authorities: Ministry of Industry and
Information Technology of
PRC

Sponsor: China Electronics
Standardization
Institute (CESI)

Publication No: CN 11-3452/TM
ISSN 1005-9776

Editor,Publisher: SAFETY & EMC
Magazine Editorial Office

Chief Editor: Wang Shuhua
Executive Editor: Wang Shuhua
Associate Editor: Tian Ning

Address: No.1 Andingmen
Dongdajie, Beijing,
China

Post Code: 100007
Tel: +86-10-64102629
+86-10-64102630

Email: wangsh@cesi.cn

Contents

42 Analysis of the Impact of EUT Test Table on Test Site Performance Using Time Domain Method

Feng Tieying, Li Difei, Deng Lingxiang, Chen Yulong

50 A Training-simulating Integrated Surrogate Modeling Approach for High-speed Links with LSTM Network

Liang Peng, Jiang Yang

57 A Reconfigurable Ultra-wideband Antenna for Electromagnetic Situational Awareness

Lai Chengqi, Xiao Qi, Ji Qizheng, Wu Nankai

67 Optimization of Meshed Ground Plane Design for Silicon Interposer

Yang Qiao, Li Kangrong, Tian Jingzhi, Xu Donghua

73 Optimal Design of EMI Filter Based on Particle Swarm Optimization

Wang Jiqian, Liu Yan, Zheng Xiaona, Xiao Yonghang

TECHNICAL COLUMN

81 Examples of Electromagnetic Radiated Emissions Measurement of Automotive Chip Under Different Working Status

Lei Lili, Li Qi, Liu Ying

**SAFETY & EMC
welcomes your contribution!**
